## Client Agreement and Disclosure Statement

Thank you for your interest in working with Bonnie Thompson, the single member of Healing Tree Wellness, LLC (“HTW”) as a client either in person or at a distance using the telephone or Skype, whichever is applicable. HTW is providing you with the following information so you can make an informed choice about your decision to engage the services of Bonnie Thompson, as the single member of HTW. Please read this information carefully and let Bonnie Thompson know if there is any part you do not understand.

### Services Offered

Bonnie Thompson offers her services as a complementary and alternative health care practitioner under Colorado’s Natural Health Care Consumer Protection Act. She works with clients in a number of areas, including, overall health, stress management, recovery from illness or surgery, and energy and spiritual wellness. Her focus with a client is to work with the whole person, using a variety of energy-oriented complementary and alternative medicine approaches, including, **Healing Touch**, **Emotional Freedom Techniques (EFT)**, and the **Emotion Code/Body Code System** (collectively the “Energy Methods”). Sessions may include energy assessment, clearing and balancing through light touch (on and off the body), use of a therapeutic magnet off the body, and/or tapping at specific points on the body. The Energy Methods can be used in conjunction with conventional medical services or independent of conventional medical services to support healing, health, and wellness. You have the option of using individually or collectively any of the Energy Methods offered as part of your work with Bonnie Thompson.

### Energy Methods/Theoretical Approaches

Energy Methods is a collective term used to refer to a variety of energy healing techniques based on the use and modification of energy fields. The Energy Methods are designed to assess where the body’s energies are blocked or not in harmony and then unblock, correct, and balance the flow of these energies thereby aligning the body’s energies to boost health, vitality, and restore the body’s natural energies. The Energy Methods can also assess the energetic impact of how thoughts, beliefs, and emotions can influence the health and well-being of an individual. The prevailing premise of the Energy Methods is that the flow and balance of the body’s electromagnetic and subtler energies are important for physical, spiritual, and emotional health, and for fostering well-being. If you ever have questions or concerns about the nature of the theories and methods used, please feel free to ask Bonnie Thompson for further resources or references.

### Healing Touch

Healing Touch is an energy therapy in which practitioners consciously use their hands in a heart-centered and intentional way to support and facilitate the physical, emotional, mental, and spiritual health and healing of the client. It uses light static on-the-body touch and near-to-body touch according to designated techniques. Clients rest comfortably fully clothed either on a massage table or in a comfortable chair. Bonnie Thompson will explain to you what she is doing and why, and will ask your permission before touching your body.

### Emotional Freedom Techniques (EFT)

EFT looks at and seeks to address stressors and imbalances within an individual’s energy system, as well as the energetic influence of thoughts, beliefs, and emotions on the body. EFT uses the ancient Chinese meridian system with a gentle tapping procedure which stimulates designated meridian end points on the face and body while saying specific phrases and focusing on issues of emotional intensity in order to release the

intensity and reframe the issues. In an EFT session, the client does the tapping on the client's own body and the practitioner helps guide the session by instructing the client where to tap while saying specific phrases based on the issues that are being worked on. If you are having an in office session and you are not able to "tap" for yourself, then Bonnie Thompson may need to "tap" for you. In such a rare event, she will ask for and receive your permission prior to tapping on your body.

### **The Emotion Code/Body Code System**

This energy-based system was developed by chiropractor Bradley Nelson and is designed to allow the practitioner and client to communicate directly with the client's subconscious mind and to use Body Code Mind Maps to correct energy imbalances for the purpose of releasing trapped emotional energy and to help create optimal health. According to Dr. Bradley, a majority of the population has a Heartwall, a wall protecting or blocking the heart made up of trapped emotional energy. This system is designed to bring to conscious awareness issues which an individual has no conscious memory of and uses muscle testing to discern the information and a magnet as a tool to release trapped emotional energy, including clearing the Heartwall..

Although the Energy Methods appear to have promising emotional, spiritual, and physical health benefits, they have yet to be fully researched by the Western academic, medical, and psychological communities. Therefore, the Energy Methods may be considered experimental and the extent of their effectiveness, as well as their risks and benefits, are not fully known.

### **Nature of the Relationship**

Please be advised Bonnie Thompson, as the single member of HTW, offers her services solely as complementary and alternative health care practitioner. You should discuss any recommendations she makes during your session with your primary care physician, obstetrician, physician, obstetrician, gynecologist, oncologist, cardiologist, pediatrician, or other board-certified physician or licensed mental health care provider. ***The Energy Methods are self-regulated and the State of Colorado does not license, certify, or register complementary and alternative health care practitioners. While Bonnie Thompson has extensive experience as a healing arts practitioner, she is not a psychologist, psychotherapist, physician, or other licensed health care professional. She adheres to the Standards and Scope of Practice of the Healing Touch Professional Association. Under Colorado's Natural Health Care Consumer Protection Act, Bonnie Thompson, as the single member of HTW, can offer her services subject to the requirements and restrictions that are fully described therein.***

### **Outcome Expectations/Risks & Benefits**

While clients report positive outcomes, please note that it's not possible to guarantee any specific results and neither Bonnie Thompson nor you know how you will personally respond to using the Energy Methods. However, Bonnie Thompson will work with you to achieve the best possible results for you. Participation in sessions can result in a number of benefits to you, including improvement and/or resolution of the specific concerns that led you to seek Bonnie Thompson's services.

While the Energy Methods are considered gentle and non-invasive, it's possible in your sessions, or on your own between sessions, to experience some physical discomfort or emotional distress that can be perceived as negative. It is also possible to experience some emotional distress and physical discomfort related to stressful experiences you may have had earlier in your life. Occasionally, some people have experienced dizziness, nausea, or anxiety as occasional side-effects from energy work. You agree to promptly inform Bonnie Thompson if you experience any emotional distress and/or physical discomfort during a session or between sessions. If appropriate, Bonnie Thompson can help refer you to an appropriate professional health care provider for further assistance.

Please be advised that with some of the Energy Methods, it's possible that previously vivid or traumatic memories may fade which is a positive outcome. However, this could adversely impact your ability to provide

legal testimony that carries the same emotional impact as prior to using Energy Methods regarding a traumatic incident.

### **Other Important Information**

When using the Energy Methods you understand Bonnie Thompson is not “diagnosing” or “treating” the physical body, which is the domain of the medical field and other allied health care professionals. You understand there is a distinction between “healing” using the Energy Methods and the practice of medicine or any other licensed health care practice. Bonnie Thompson, as the single member of HTW, is covered by professional and general liability insurance through the Healing Touch Professional Association, applicable to any injury caused by an act or omission by her in providing her complementary and alternative health care services pursuant to this Client Agreement & Disclosure Statement.

The Energy Methods Bonnie Thompson uses involve tapping or touching on various points on the face and body. The theory behind such tapping or touching is that these points can assist her and you in shifting imbalances in your energies. Touch can also be a potential problem in a healing relationship if you have a history of any kind of trauma around touch. If you have any reservations about physical touching as described above, please let Bonnie Thompson know.
